Create New Worlds

Shape, colour and material all convey emotions, tell stories and inspire new ideas. And they all lend our buildings character. Therefore, with this brochure we want provide you an overview of the creative and technical components of the Max Compact Exterior panels for outdoor use.

If you have any questions that are not answered in this brochure, please contact our sales department or application engineering department at support@fundermax.biz. We are happy to help!

The figures in our brochures are schematic representations and are not to scale.

Exclusion of Liability

The information made available in this document are exclusively for purposes of general information. Not all of the systems mentioned and shown in this document are appropriate or suitable for all areas of application. All customers and third parties are obligated to inform themselves thoroughly about Fundermax products, including their suitability for certain purposes. We explicitly recommend that you and other users of this document seek out independent expert advice on adherence to local planning and use requirements, applicable laws, regulations, standards, guidelines and testing standards. Fundermax accepts no liability in connection with the use of this document.

1 Products

What Max Compact Exterior Can Do

Max Compact Exterior panels are duromer high-pressure laminates (HPL) in accordance with EN 438-6 Type EDF that are produced in lamination presses under great pressure and high temperature. Double-hardened acrylic PUR resins provide extremely effective weather protection that is particularly suitable for longlasting balconies and façade claddings.

extremely weather resistant

optimal light-fastness

double hardened

scratch resistant

solvent resistant

easy to clean

impact resistant

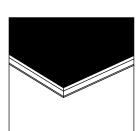

easy to install

Properties*:

- Weather resistant to EN ISO 4892-2
- · Lightfast acc. to EN ISO 4892-3
- Double hardened
- Scratch resistant
- · Solvent resistant
- Hail resistant
- Easy to clean
- · Impact resistant EN ISO 178
- Suitable for all exterior applications
- · Decorative
- Bending resistant EN ISO 178
- · Frost and heat resistant
- Constant temperature load
- -80 °C to 80 °C
- Easy to install

*Standard- and actual-values you will find on our website www.fundermax.at.

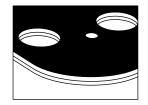

Max Compact Exterior F-Quality

As a standard, Max Compact Exterior panels come printed on both sides. The core is flame-retardant and the surface is lightfast. Thanks to the double-hardened resin, it is also extremely weather resistant. (Fire Test EN 13501-1, B-s2,d0)

Sandwich-Elements

Für die Herstellung von Verbundelementen können die Max Compact Exterior Platten in F-Qualität auch als einseitig geschliffene Platte geliefert werden.

Processing (Compact Elements)

Fundermax offers CNC controlled processing and panel cutting. With state-of-the-art devices, it is possible to produce everything: from simple cutouts for mounting the façade panels, to intricate milling for balcony elements. We can make just about anything you can dream up.

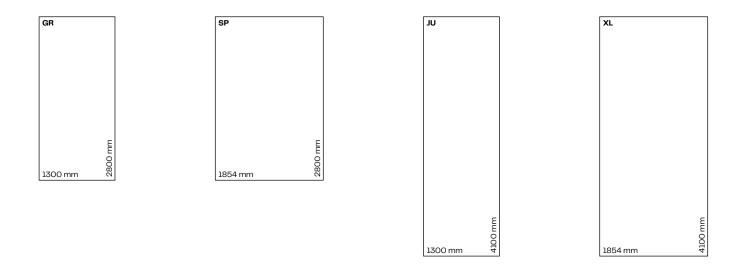

Professional Consulting

With our services you can use our products even more effectively. For example, take advantage of our free architect consulting and comprehensive system solutions. The same is of course also true if you have any questions about the content of this brochure or the designs and technology.

Max Compact Exterior F-Quality

A high-quality construction product with CE mark for use as durable balcony and facade cladding. The panels are thermoset high pressure laminates (HPL) in accordance with EN 438-6, type EDF, with extremely effective weather protection due to double-hardened acrylic polyurethane resins.

Surfaces

- NT
- NH (Hexa)/NT (format 4100 x 1854 mm only)
- NG* (Gloss)/NG (Gloss) (format 4100 x 1300 mm only)
- NY (SKY)/NT (format 4100 x 1300 mm only, thicknesses 6 mm, 8 mm, limited decor palette)

Formats**

- 2800 x 1300 = 3.64 m²
 110.24" x 51.18" = 39.18 sf
- 4100 x 1300 = 5.33 m²
 161.42" x 51.18" = 57.37 sf
- 2800 x 1854 = 5.19 m²
 110.24" x 72.99" = 55.87 sf
- 4100 x 1854 = 7.60 m²
 161.42" x 72.99" = 81.81 sf

Thicknesses

Panels with double-sided decor:

Thicknesses

- 2.0 2.9 mm ± 0.2 mm
- 3.0 4.9 mm ± 0.3 mm
 - 5.0 7.9 mm ± 0.4 mm
- 8.0 11.9 mm ± 0.5 mm
 - 12.0 13.0 mm ± 0.6 mm

Panels with the Hexa surface:

Thicknesses Tolerances (EN 438-6, 5.3)

Tolerances (EN 438-6, 5.3)

- 6.0 7.9 mm ± 0.4 mm
- 8.0 11.9 mm ± 0.5 mm
- 12.0 15.9 mm ± 0.6 mm
- 16.0 20.0 mm ± 0.7 mm

Panels with sanded-reverse side:

For symmetrically structured sandwich elements.

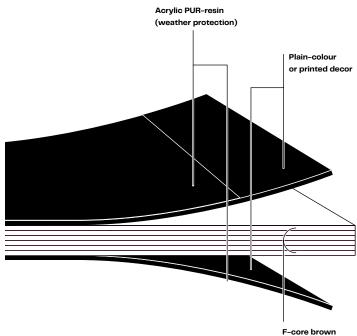

Tolerances (EN 438-6, 5.3)

- Thicknesses
 - 2.0 2.9 mm ± 0.2 mm
 3.0 4.0 mm ± 0.3 mm

Core

- F-Quality
- flame-retardant
- colour brown

Structure Max Compact Exterior panel

F-core brown (flame-retardant)

Tip

Max Compact Exterior panels can also be produced with a white (reverse) side (decor 0890 NT – Balcony white) for balcony interiors with a uniformly light design. Owing to the differing decor structure, the specified mounting distances should be reduced by at least 15%.

- For an optimal facade cladding appearance, we recommend installation by means of gluing to an aluminium substructure. Wood is not recommended, as irregularities result in a wavy appearance.
- ** Tolerances +10 0 mm (EN 438-6, 5.3), panel formats are production formats – cutting to size on all sides is recommended if dimensional and angular accuracy are required. The net dimensions are reduced by approx. 10 mm, depending on cutting.

2) Typical values result from internal quality tests. Typical values are only shown as examples and can't

be used for any liability on the part of FunderMax (no promised guaranteed values). FunderMax only

guarantees compliance with the standard values.

All the respective current certificates and approvals are available in the download section at www.fundermax.at.

Please observe all valid building regulations. We will assume no responsibility in this regard.

Please check whether your construction project meets the requirements for the effective restriction of fire propagation (e.g. AT: OIB RL 2, DE Sample Management Regulations for Technical Building Regulations MVV TB,.). This brochure is intended for professionals who are familiar with the relevant standards, technical regulations, legal requirements and relevant guidelines for building products. These guidelines have been prepared with great care, but we would like to point out that the responsibility for the correct planning always lies with the planner and the responsibility for correct installation always lies with the installer.

2 Sustainability and Environment

Resource and Environmentally Friendly Facade Panels

We are specialists in the processing of renewable raw materials – and have been for over 100 years. Our production cycles are closed, production waste is either recycled back into the production process or used to generate energy in our green energy district heating plants. This works so well, that today as a private company we provide district heating to over 8,500 households.

Quality Management Systems

Fundermax has oriented its production facilities and processes on internationally recognized standards such as ISO 9001, ISO 14001, ISO 5001 and ISO 45001. This fact gives all customers the assurance that they have in their hands a high-quality construction product. And in its procurement of raw materials and intermediate products, Fundermax orients itself on uptodate standards such as FSC® C101966 and PEFC*.

www.fundermax.at

Sustainable production

Max Compact Exterior is made from natural fibre panels — around 65%, by weight — consisting largely of wood that has been processed into "kraft papers". This wood is a by-product of sawn lumber production or of sawmills. We source these raw materials from vendors certified according to the standards FSC® C101966 or PEFC. These standards ensure that the wood is produced in compliance with internationally applicable rules for sustainable forestry.

The kraft papers are impregnated with synthetic resins in impregnation facilities, dried, and pressed into durable, moisture-resistant panels under high pressure and heat. These panels do not contain organic halogen (or chlorine, fluorine, bromine, etc.) compounds such as are found in greenhouse gases or PVC. They contain neither asbestos nor wood protection agents (fungicides, pesticides, etc.) and are free of sulphur, mercury and cadmium.

The exhaust air removed from the drying process is treated using a process of regenerative thermal oxidation, with the resulting heat being fed back into said drying process. For its installation of this efficient exhaust air treatment, Fundermax was awarded the "Klima:aktiv" award for best practices by the Austrian Energy Agency and the Austrian Federal Ministry of the Environment. This avoids CO2 emissions of ca. 10,000 tons annually at the production site.

Waste disposal

Chips and shavings produced by processing (cutting and milling) are not hazardous to human health. This also means that waste can even be disposed of thermally without the emission of environmental toxins such as hydrochloric acid, organic chlorine compounds or dioxins, assuming modern heating systems. At appropriately high temperatures, and assuming both sufficiently long retention of the combustion gas in the combustion space and a sufficient oxygen supply, Max Compact Exterior decomposes into carbon dioxide, nitrogen, water and ash. The energy emitted via this process can be put to use. Disposal in properly managed commercial waste disposal sites is unproblematic. As a matter of principle, country-specific laws and regulations with regard to disposal must be adhered to.

3 Max Compact Exterior Range of Decors

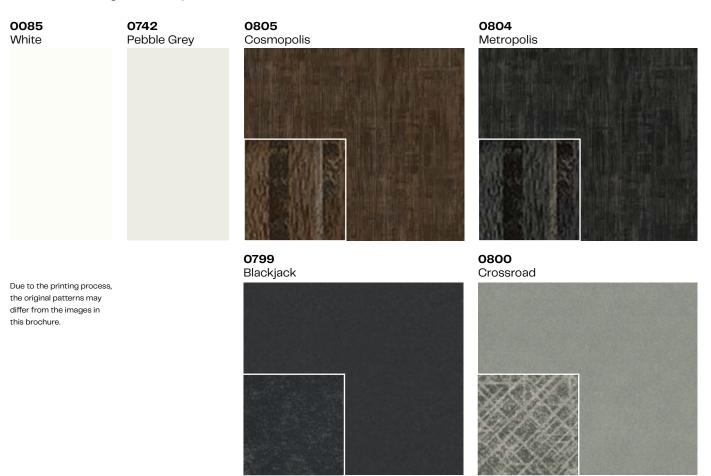

Architecture Begins in the Mind

It all starts with an idea. Then the first pictures. Many questions arise. What is possible? Does the form follow the function? What colours and materials speak the right language? And to what degree can creativity be the benchmark?

Whatever form your imagination takes, the new Exterior Range of Decors from Fundermax opens up a world of innovative designs with which you can give your buildings a very unique character.

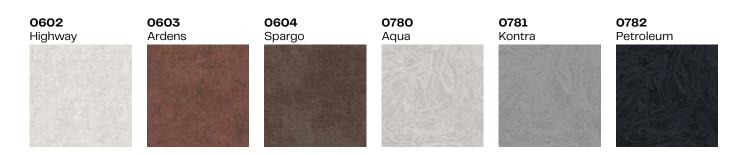

Update 2021

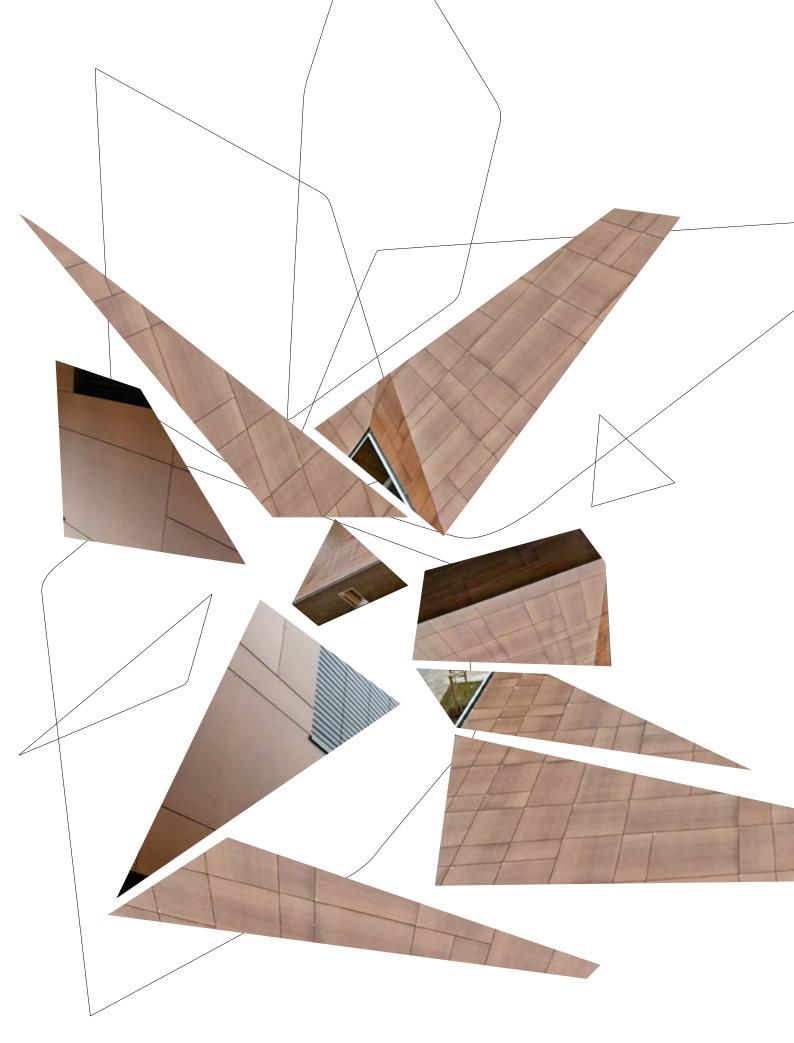

The focus is directed towards the "Sky (NY)" surface ranging from nearly white to fresh gray resulting in almost black. With this surface-decor combination, the architecturally purist appearance captivates with its haptics as well as the play of light and shadow. "0804 Metropolis" and "0805 Cosmopolis" are not typically rustic wood, but have an urban feel and look to them. The surface underlines the elegance of the decors with NG and on the other hand gives greater focus on the adaptability with NT. With its graphical-linear depth effect, the stone-like Sky (NY)" surface, "0800 Crossroad" presents itself as a complementing decor with a structurale highlight. The all-rounder with almost black color is "0799 Blackjack", which with its irregular details provides a balanced, timeless character.

Update 2019

Structures in unique intensity: From geometric elements to hybrid decors to flowing marble effects and textile dynamics – with six fascinating decor creations in urban and earthy tones, Fundermax reinterprets material. Experience extraordinary designs that create a powerful excitement, especially in the interplay with matt and glossy surfaces.

Authentic Natura

The power of nature forms these highly individual looks: its unparalleled structure gives Authentic Natura an exceptionally natural appearance. Combined with the lively decor structure, this look makes every single panel a unique item.

Civic centre Ginsheim-Gustavsburg, Germany; Winner of the "Deutsche Fassadenpreis" 2011. Conceived by Hille Architekten, photographed by Horst Goebel.

Fire station Saltaus, Italy Monolithic design, surrounded by nature. Projected by architects Menz + Gritsch.

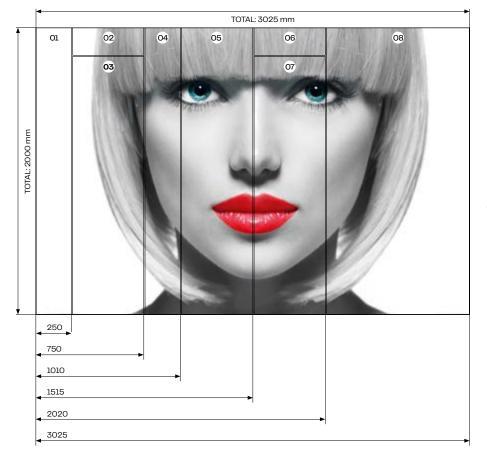

Fundermax

Individualdecor

If you can think it, we can print it. Make your imagination into individual, large-sized decor concepts. With various formats and motifs spanning over multiple formats, your fantasy becomes reality. Give your buildings character with truly unique designs.

As a small inspirational source, we present to you a few application examples on next page. Fundermax Individualdecor has made all of them possible.

Find all information about Fundermax Individualdecor on www.individualdecor. com

Ideas with Form

With individual designs from Fundermax, you have the freedom to provide facades, balconies and outdoor-applications with creative and completely unique designs. Your design can be printed on single panels, or as in the image below, across several panels. Ideal for large designs and special visual effects.

Baumit Sales Location, Austria Impressive facade with a custom design from the Baumit advertising line. Design and photos: Baumit

Haus der Generationen, Austria Treetop design for smooth transitions between home and environment. Designed by Gerhard Mitterberger.

Clientis Park, Switzerland Cubic headquarters with mosaic design and the highest energy standard. Concept by Architektengemeinschaft 4 and Atelier 47.

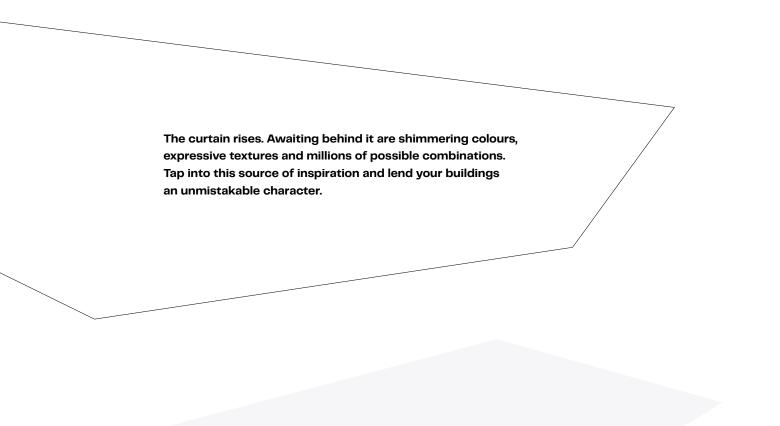

16

SKY (NY)

Due to the printing process, the original patterns may differ from the images in this brochure.

With its distinctive gloss and matt facets, Sky opens up a world of possibilities. Appealing to the eye, and impressive to touch, it is full of depth and character. Unleashing new potential, especially when re-creating stone or concrete finishes.

Finish

Our finishes are all weatherproof, optimally lightfast, highly durable, and combinable with almost every Fundermax decor.

NT

The silk-matte look with a feel of fine hammer embossed finish.

NG

The glossy high-class touch that enhances any decor.

NH

Our surface with the specially printed hexagon pattern – slip-free and ideal for that special emphasis.

Metallic

Metallic additionally gives your decors a timeless gleam. This is made possible by combining a transparent overlay with metallic flakes and a plaincoloured decor. If you're interested in other Metallic combinations, please get in touch with us.

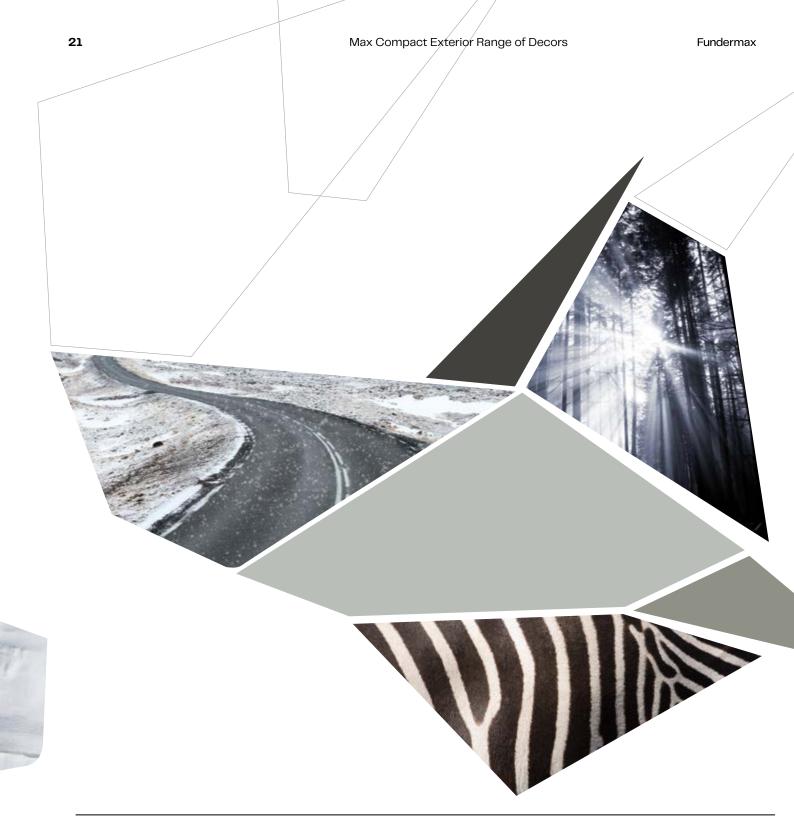

black & white

The eternal tension between light and shade – a daily presence, a continuous novelty. This much elegance is combinable with every other of our decors. Give your buildings maximum appeal through contrast.

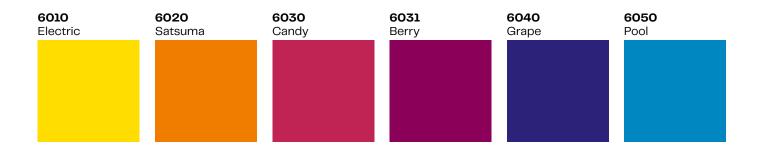

neon

Fascinating optical intensity. With an all-new process, Max Compact Exterior panels can now be produced with even more vibrant colours. Give your buildings incredible brilliance.

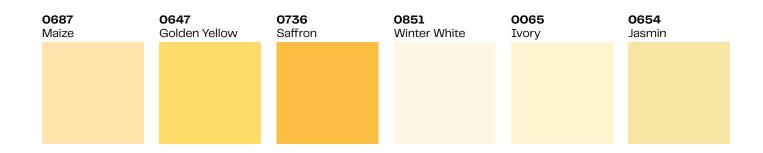

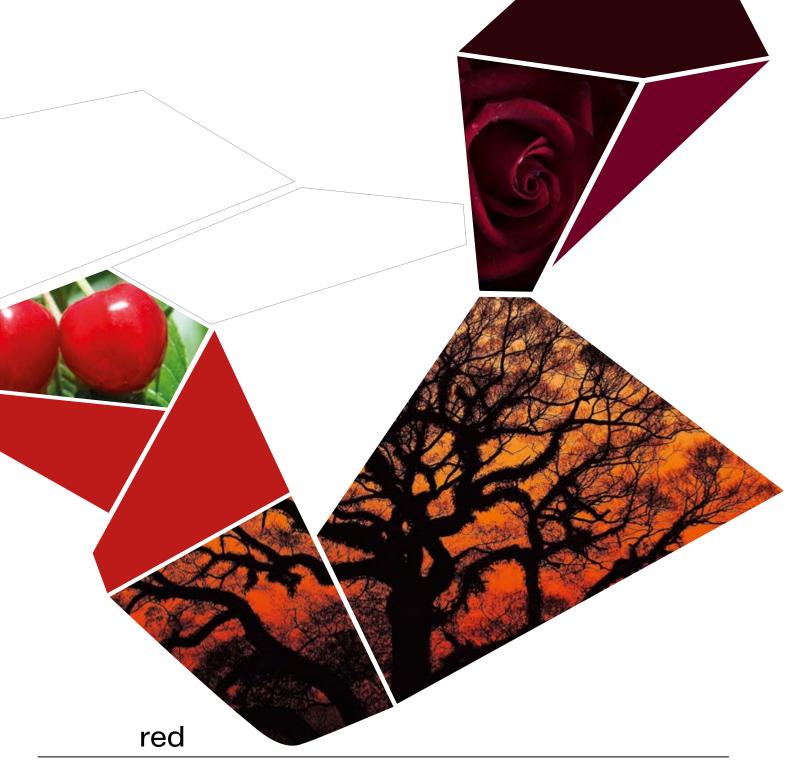

yellow

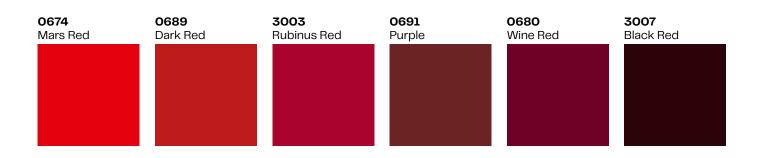

The last glimmering streak of a sunset. Jasmine flowers delicately glowing in the backlight. Give your buildings freshening colour shades.

Funderma

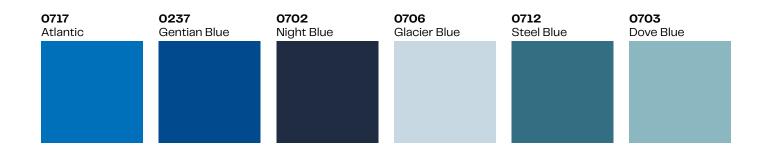

The lush gloss of fully ripe cherries. The soft play of colours in an opened rose blossom. Give your buildings deeply felt passion.

blue

The mysterious depth of the night sky over the city. Seawater glistening in a thousand different colour facets. Give your buildings fantastical inspiration.

Fundermax

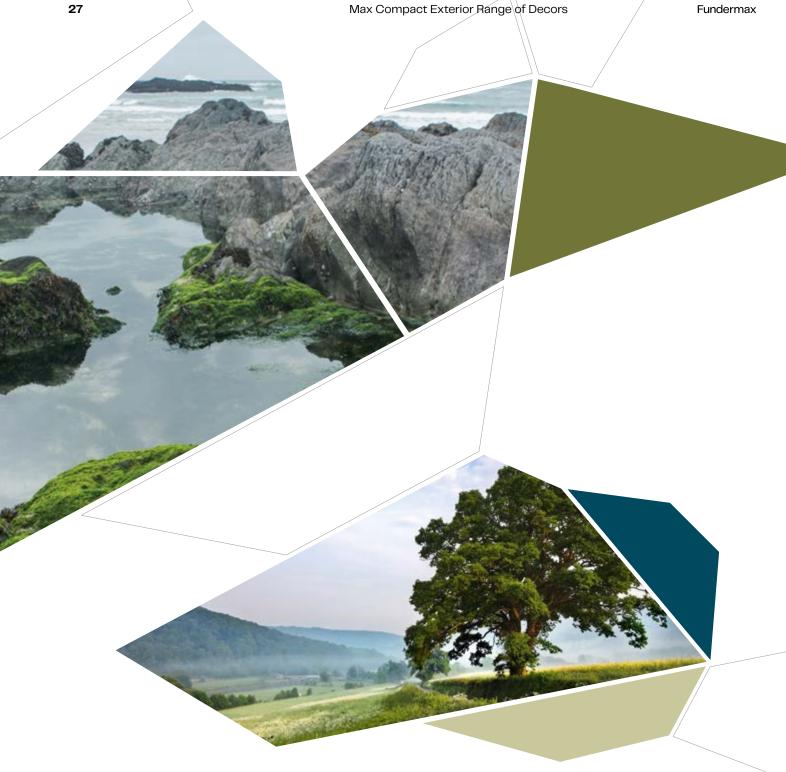

green

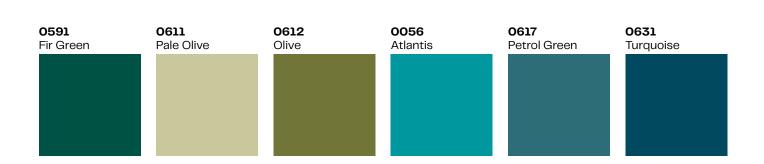

A sea of fern leaves in the forest's twilight. The iridescent eyes of a feline. Give your buildings a look of opulence.

Fundermax

brown

Clay castles in front of a steel-blue savannah sky. The delicately speckled house of a vineyard snail. Give your buildings a pristine, natural look.

Fundermax

pastel

29

Stones smoothed by the waters of the surf. Subtle interplay of ivory and cream shades. Give your building exceptionally noble looks.

Nature

impressive

Distinctive at first glance – and at any further one. The look of precious woods from all over the world. Give your buildings impressive style.
