

Lab Work Surfaces | Max Resistance²

Max Resistance² sets a new standard and considerably increases the life cycle of your laboratory work surface. It offers a significantly higher resistance to scratching, impact and abrasion, as well as aggressive acids, and has excellent mechanical and physical properties.

Moisture Resistant

Food Grade

Perfectly disinfectable

Double Sided

Resistant to Thermal-shock

Easy to Clean

Ease of Installation

Excellent machinability

Heat resistant up to 180°C/360°F

Durable

Excellent chemical resistance

Anti-Static

Scratch Resistant

Impact Resistance

Black Core

With its deep black core and double sided resistant decor, you can maximize your design and reduce waste during fabrication. Extra high resin content and careful manufacturing results in a consistent depth of color, removing the need for edge treatment. The below are **US stocked decors** in 3/4" and 1" thickness.

Colored Core

Some panels are available with a color through core. That means the core has the same color as the surface layer without sacrificing durability or sustainability. The below are **US stocked decors**.

0085 White

0606 Arctic White

0074 Pastel Grey

2181 Volcano Grey

0075 Dark Grey

0077 Charcoal

0082 Deep Black

0085 White with color through core

0074 Pastel Grey with color through core

2181 Volcano Grey with color through core

0077 Charcoal with color through core
