Fundermax

No matter if it is wall lining, interior design, furniture, or a facade, you will find Fundermax where ideas and materials meet. As a global market leader in the field of compact phenolic panels, the company is proud to look back on a history spanning 130 years. The continued success is based on the highest quality, innovative and varied design, and sustainable production. Made in Austria—with great love for wood as a natural material, creations, and imagination.

Sustainability and the Environment

Offering high-quality compact phenolic panels with various decors, Fundermax positions itself at the very heart of the architecture of a building. We design and manufacture a broad spectrum of products made from natural materials. These products are easy to work with and provide architects and owners with solutions that stand the test of time.

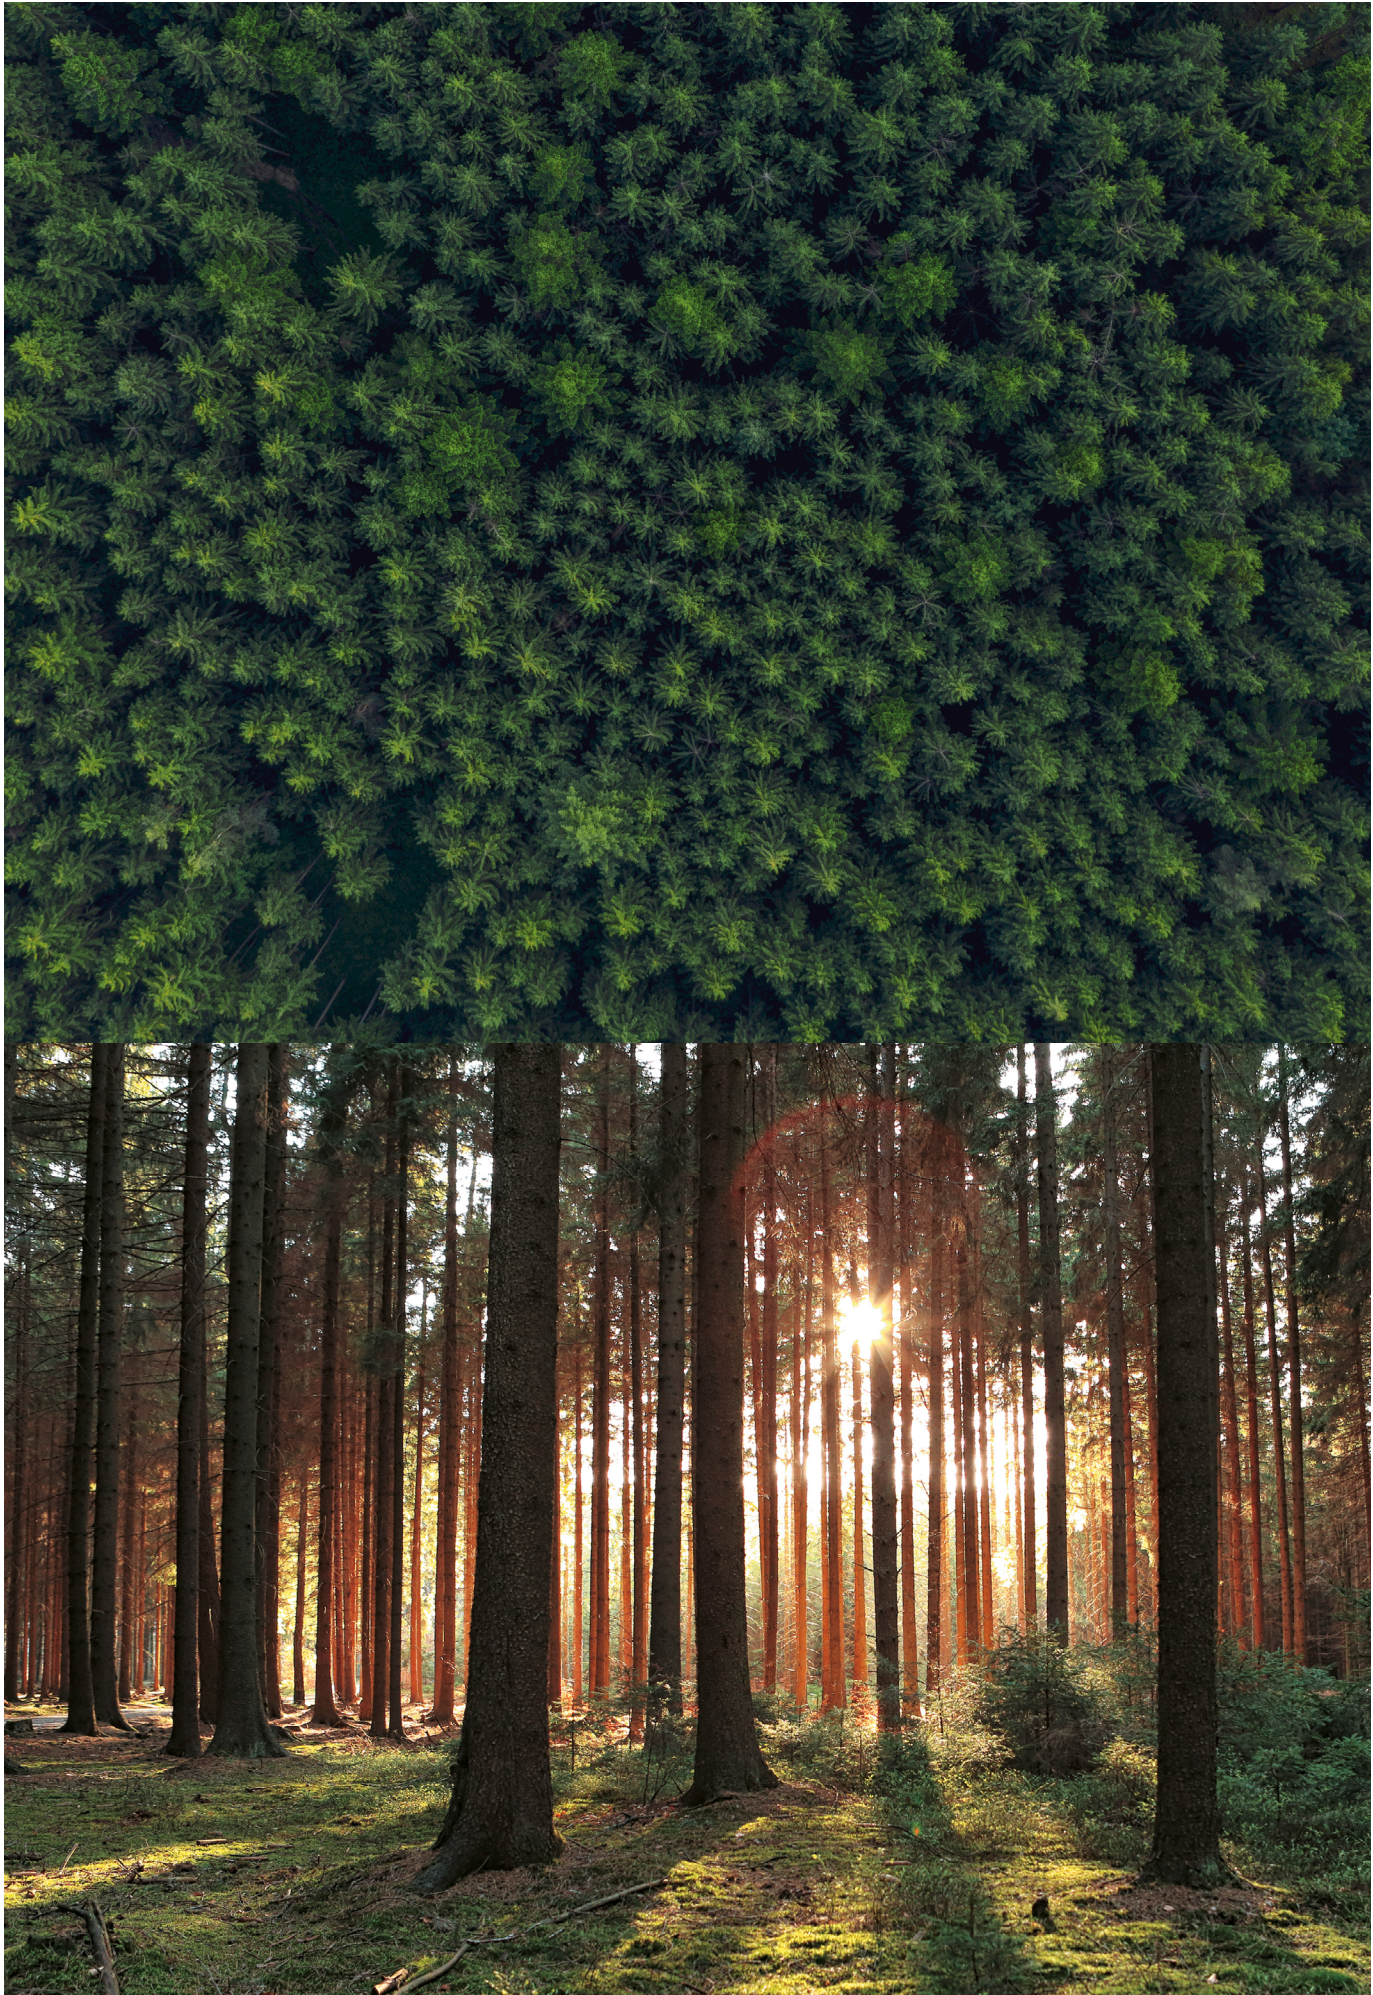

Fundermax has been processing natural materials with precision and love for over 130 years. Today, we are a global leader in manufacturing compact phenolic panels for both interior and exterior applications. Fundermax stands for nothing less than top quality and excellent design.

This and much more is what makes Fundermax a sustainable company, always looking to the future.

Interior 2.3 Essential Collection

The Collection

Fundermax interior panels are synonymous with product quality, sustainability, innovation, and design freedom.

The Essential Collection focuses on maximum decor selection and efficiency.

Fundermax Individual Print offers maximum design freedom. Create your own design with Fundermax Individualdecor panels or make accents through design milling directly on the material surface without any further treatment.

With the Interior 2.3 Essential Collection, Fundermax opens up a world of design possibilities for you.

For you to create.

Note: Color deviations from the original samples are due to printing technology.

Individual Print

Your Design. Your Space. Your Look.

Create exclusive phenolic panels according to your own ideas for a wide range of applications, from the workout zone to the kids club.

Individualdecor panels give you the opportunity to bring any design you can dream of into any room.

Information on formats and services can be found on page 31.

Surfaces

Unique surfaces combined with diverse decors – tailor-made for your next project!

From trusted classics like the Fine Hammered (FH) finish to expressive wood textures, and even the Aptico (AP) finish with an anti-fingerprint effect, Fundermax offers a diverse selection of high-quality surfaces.

Let us inspire you and discover the perfect combination of surface and decor to give your project that extra something.

Surface matrix	
Surface	Max Compact Interior
AP = Aptico	■
FH = Fine Hammer Embossed	■
Individuadecor	■
MT = Matte	■
SG = Supergloss	■

FH Fine Hammered | Max Compact Interior
FH Fine Hammered is versatile and therefore one of the most popular surfaces. It visually blends subtly into its surroundings, is resistant, and easy to clean.

CLASSIC

MATTE

AP Aptico | Max Compact Interior

This matte surface stands out for its high quality due to the anti-fingerprint effect. The technology has been patented. AP Aptico is easy to maintain and process.

MT Matte | Max Compact Interior

This matte surface captures the spirit of the times. MT Matte impresses with its velvety and uniform texture.

SG GLOSS

SG Super Gloss (Mirror Gloss) | Max Compact Interior

SG Mirror Gloss impresses with its elegant and noble appearance. The gloss enhances the color effect of the decors significantly.

Decors

Color

The new solid color collection impresses with its harmonious color selection and consistent color ranges from light to dark.

Black and white appear in various shades, ranging from cool to warm tones. The popular greige spectrum leaves nothing to be desired in its versatility.

The vibrant colors of the color wheel, such as red, yellow, green, and blue, have been implemented in fresh and contemporary shades, along with new intense solid colors, to complete the palette.

All Color decors are available with FH and MT surfaces in Max Compact Interior panels.

For other color/surface combinations, please consult with your Fundermax representative.

Nature

In the development of the decors, not only the current trends but also the combinability of the decors with each other and their durability were taken into account.

In addition to classic woods like oak, walnut, ash, and chestnut, the collection also includes lesser-known woods that have been somewhat forgotten, such as cherry, pear, birch, and even eucalyptus.

With this diverse selection, the collection makes a clear statement in the market and provides you with a versatile range of options.

All Nature decors are available with FH and MT surfaces in Max Compact Interior panels. **For other color/surface combinations, please consult with your Fundermax representative.**

The Essential Product

Max Compact Interior

Compact panels are highly durable phenolic panels with decorative surfaces on both sides according to EN 438-4, Type CGS, produced under high temperature and high-pressure presses.

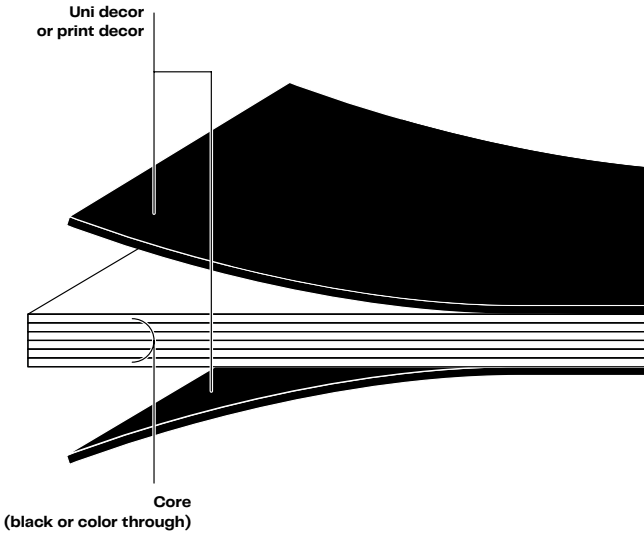

Max Compact Interior is standardly made with a black core (D-s2, dO). For a particularly homogeneous appearance, Max Compact Interior is also available in three other core colors (white, pastel grey, charcoal). For special requirements, there is also a version with a black core, F-quality (Type CGF / B-s2, dO / B-s1, dO).

Application

Suitable for interior design (e.g., wall protection, sanitary and wet areas, cabinets, lockers, bathroom partitions, soffits, entryways, tabletops, and more).

Advantages

- Antibacterial
- High resistance to abrasion, impacts, scratches, and extreme temperature variations
- Cold and heat shock resistant
- Reversible, can be used on both sides
- Easy to maintain and resistant to solvents
- Durable and highly load-bearing
- Properties according to EN 438-4
- Available in three additional core colors (FH surface)
- Available with black core F-quality (B-s2, dO / B-s1, dO)
- Available with your custom design (Fundermax Individualdecor)

Max Compact Interior
Technical Manual

Interior Delivery Program

Fundermax Services

Consulting

Benefit from our architecture and project consulting services, as well as the extensive experience of our application engineers. Certificates, approvals, BIM objects, and technical information can be found in the download section of our website. You can order material and decor samples online 24/7.

Application Engineering

For over 50 years, Fundermax has been producing compact panels in Austria. During this time, we have collaborated and worked with our business partners on numerous projects.

We cooperate with all renowned system partners in the furniture, interior design, and wall protection sectors, continuously expanding our knowledge, which we are pleased to provide for the planning and implementation of your project.

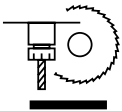

Our experts in building approvals and certification ensure the timeliness and expansion of all relevant certificates in the exterior and interior domains.

Furthermore, through our in-house service offering in the field of cutting and CNC machining, we are connected with all well-known tool suppliers, enabling us to provide excellent advice on processing-related inquiries.
